Building a
community

BEYOND
PLASTIC
MED
ISLANDS

#BeMedIslands

Analysis of single projects

- To provide suggestions for harmonized approaches,
- To list key resources,
- To identify possible synergies between the different modular projects (technical sessions)
- To establish joint actions between modular projects & micro-initiatives

Session	Topic
1	Harmonized communication and support
2	Plastic waste management models in Mediterranean islands: concrete examples and practices
3	Plastic waste monitoring methodologies and tools
4	Mobilizing stakeholders to tackle plastics
5	Engagement of private sector and alternatives to single-use plastic products
6	Policy instruments and legal aspects to fight plastic pollution in islands

BEYOND PLASTIC MED ISLANDS CAPITALISATION PROGRESS

Potential synergies among BeMed projects and support needs

SCP/RAC and SMILO
 imateo@scprac.org
 s.petit@smilo-program.org

July 2021

COMMITTED TO SUSTAINABLE MEDITERRANEAN

Objective II

→ To transfer individual project approach, results, know-how, and lessons learnt generated by the BeMed projects to other islands
